WARNING: not for the fans of a sweet MM romance!Von LenaRibkaWhat for a crazy ride!There are only two ways to deal with this book:1. DNF it or skip the most of the story, say WTF at the end and forget about.2. Being sucked into the story, swallowed by the creepy imagine world created by Todd Young, having no idea what happens on the

next page, saying more than 100 times WTF during reading and WOW at the end.If you didn't get it - I am from the second group. And now it's officially:I am a big fan of Todd Young .I don't know another author who can write this kind of mind-BLOWING and mind-F\* erotica.WARNING: not for the fans of a sweet MM romance.I normally recommend to get a sample to find out if a book is for you or not, but it is totally useless if it is your first Todd Young.DOESN'T MATTER what you'll think after finishing it, it is not what you think it is.I am not sure that this book about the aphrodisiac trial wasn't a kind of experiment the author played with readers!Did I pass through?!

Sean is signed up for a three week, live-in trial. A new aphrodisiac? Its not something Joel really needs. But when Sean tells him theyre paying \$4,500, he starts to think. \$4,500 and three weeks with Sean? Thats not an offer he can refuse. But once Joel is in the institute, will he ever get out?KurzbeschreibungJoel is young and lonely and a little oversexed.
