I Will Keep ReadingVon Ein KundeThis is the first book of Delinsky's that I have read, and it won't be the last. First, I loved the fact that, besides the main story, there were two additional storylines that intertwined with the main story. The characters were well rounded. Second, when friend and co-worker Mara dies, those closest to her are forced to take a long look at their lives and what they want from them. This was one of the best books I've read in a while. I am

looking forward to reading more of Delinsky's books.0 von 0 Kunden fanden die folgende Rezension hilfreich.
FantasticVon Hannah M. HureyThis was the first book by this author that I had ever read and reread. It made me go out and look up more of her other books to read. I LOVED THIS BOOK!!!! It made me realize how special my best friends are and how important it is to talk to them about all of your feelings. I just got married and read this book before I picked my bridesmaids. I think it really meant a lot to those young woman to hear why I had picked them and how very special they were to me. This book was what made me realize it. It is a book for anyone who has ever wanted to laugh and cry at the same time. It is about "REAL" people facing real situations and the feelings that we all feel. I could not put this book down and would highly recommend this book to anyone. READ IT!!!! YOU WILL LOVE IT!!!!1 von 1 Kunden fanden die folgende Rezension hilfreich. Didn't want to put it down!Von PamAfter surviving a suicide in my own family, I could really relate to the characters in this novel. B. Delinsky really hit on the feelings and emotions involved for survivors of suicide. I missed the characters when I was finished with the book!
