Incredible characters, great plot, unexpected end - even better than `Dinner'Von Helpful AdviceWhen five years ago Herman Koch wrote `Dinner' I remember it was one of those novels that you take and do not stop reading until you get (too early) to the last page. Incredible characters, great plot, unexpected end. These days I felt the same after I read his

new novel 'Summer House with Swimming Pool'. Indeed it could be said that it comes to a style that we may one day call 'Koch style' because he manages to create primarily his leading characters in some special way that although we actually see them as repulsive, we cannot stop wondering what was going to happen with them, turning the pages in order to find out how the story will unravel. The main character Dr. Marc Schlosser, is kind of physician you probably would not want to get into his office, let alone wanted to treat you. Time spent with his patients usually he sees as lost and boring, while many times he is disgusted by their problems and illnesses. He lives with his wife Caroline and their two daughters, Lisa who is eleven and Julia thirteen years old, which are beautiful girls loved by both parents. One day, a famous actor Ralph Meier will become Marc's patient, treating him for fatigue, not wasting too much time on real medical examination. When Marc and Caroline will attend the opening of Shakespeare play in which Ralph acts, and after they two will meet Ralph's wife Judith who will be liked much by Marc that would start their meetings outside Marc's medical office. Judith and Ralph will invite Marc and Caroline to the summer house they are renting and there they will also meet known US movie director Stanley Forbes and his young girlfriend, Emmanuelle. Soon lot of crazy things will start to happen, Ralph will be revealed as a person who has a great variety of desires, even related to young Marc's daughters, and when two Ralph's sons appear, summer full of intrigue, sex and satisfaction of all possible needs will begin. Though some unexpected things will happen and tragedy could not be avoided... Koch's writing, addiction which he manages to awaken in the reader and especially the above mentioned characterization make his work impossible to put down, introducing reader from the start deep in the story, not letting go until the last page. And though it's difficult to compare, because I really like his previous novel much, 'Summer House with Swimming Pool' is though perhaps a little bit better; therefore recommendations firstly to all previous Koch fans, but also to all those people who will become ones when they read one or the other novel of this great writer. 0 von 0 Kunden fanden die folgende Rezension hilfreich. Very entertaining Von FrauGI really enjoyed this! A doctor who hates bodies - makes me wonder what my own GP thinks! A great read with a super twist. I read The Dinner a few years ago and was equally impressed. I also have to give a nod in the direction of the translator - a job very well done.

Kurzbeschreibung Marc Schlosser is a doctor to the rich and famous. When his most famous patient, the actor Ralph Meier, invites him and his family on holiday, Marc finds that he can't refuse. But by the time the suntans fade, Ralph Meier is dead. The medical board accuses Marc of negligence. Ralph's wife, however, accuses him of murder...
